Before the advent of modern photography, nature was recorded in words and illustrations for scientific documentation. Meriwether Lewis of the Lewis and Clark expedition was an amazing nature journalist. He documented more than 200 plant and animal species that were new to science with written descriptions and hand drawn pictures.

Today nature journaling strives to capture not only the physical presence of our natural experiences, but also the journalers feelings, thoughts and interpretations.

“A Nature Journal is a place to grow your thoughts, feelings, ideas, activities, observations and relationship with the natural world. And, it is an opportunity to interpret your inner thoughts out to the natural world and a space where the natural world can flow into you and leave a permanent mark.”

This class will be taught by Certified Naturalist Linda Musick, Cherrie Angel and Rinay Bender. All instructors are experienced nature art journalists.

The class will run from 9:00 a.m. to 4:00 p.m. at the Montana Wild Education Center and Spring Meadow Lake State Park in Helena.

Requirements to Participate

- This class is for beginners and seasoned journalists. No experience is necessary. The instructors believe that every person is an artist, just waiting for the right circumstances to reveal their talents.
- Participants may bring some form of bound artist pad, pencils, pens and some form of art medium if you already have them. We will provide several different kinds of additional media for you to experiment with.
- You will need to bring a lunch and water bottle. Water and other drinks will be provided.
- Weather permitting we will be outside so please wear shoes appropriate for walking and clothing suitable for the weather. This class will be held rain or shine.
